

RII30815 Certificate III in Civil Construction Plant Operations

Course Description

This qualification provides the common skills required for working in the construction industry as well as those required of a skilled operator working with a range of civil plant. It would also be suitable for existing workers without a formal qualification looking to upskill or get formal recognition for their construction industry civil plant operation experience. Completion of CPCCWHS1A is required before entering a construction work site

Minimum Age: 17 years

Duration

Up to 36 months
