Course Description

MSMWHS217 Gas test atmospheres is a nationally recognised course. Upon successful completion of this training, participants will be able test the working atmosphere, using electronic test apparatus, to find out if it is safe for the proposed work.

This course is designed for situations where an individual may be required to carry out gas testing of an atmosphere prior to entering a specific area or workspace.

Potential Career Pathways

- Worker operating in confined spaces or hazardous locations
- Supervisor
- WHS Officer

Course Fees

\$150.00

Course Content

Delivery consists of theory learning and assessment on-line. Practical learning and assessment are completed on campus over 3 hours

- Determining the need for testing
- Selecting and calibrating equipment
- Reading and interpreting the test results
- Communicating testing results and interpretations
- Cleaning, storing and maintaining testing equipment
