

International Course Guide

Australian Skills Group

Welcome Downunder

It is my pleasure to welcome you to Australian Skills Group (ASG).

At ASG, you can expect to receive an outstanding training program, interactive, practical and flexible courses and a unique learning experience. Our friendly staff will ensure that you will have a strong support network and an educational experience that is tailored for your specific needs.

We believe that the delivery of uncompromising quality and excellence is a key obligation for training providers as they take on the responsibility of shaping the careers of young people, as well as experienced professionals.

At ASG we take our role as educators and mentors very seriously. We deliver quality and we expect our teachers to actively engage in their students learning and professional development.

Our exciting programs are designed to teach you the skills and equip you with all the necessary tools to allow you to perform your job in the real world. We design programs to ensure that you acquire not only the practical skills and theoretical knowledge in your respective areas of interest, but also the key employability skills that are critical to succeed in an increasingly competitive market.

I welcome you to Australian Skills Group where the “drive for quality has no finish line”.

Paul Scaysbrook
Chief Executive Officer

Who We Are

Our Goal

At Australian Skills Group our goal is to consolidate our market position and continue to build and strengthen our strong and trusted brand through close relationships with industry.

Our Purpose

To provide our students with the knowledge and skills required for tomorrow's workforce to enable our industry partners to meet their current and future workforce requirements.

Our Values

MOTIVATION: We will make a difference to the training experience for all our students through applied practical learning.

CONNECTED: We are connected with our students, partners, industry and employers through strong and collaborative relationships.

INNOVATIVE: We continue to challenge existing practices.

POSITIVE: We embrace continuous improvement on a journey towards continued excellence.

ACCOUNTABLE: We are objective in our decision-making and strive to be socially and economically responsible and sustainable.

Why Australian Skills Group?

Over 30 years
delivering vocational
education and training

Over 93% of our students
are satisfied with their
experience. We are well
connected to industry.

**We have an employer
satisfaction rate of 98.6%**

Almost 97% of graduates
gain employment or continue
with further study

- South Korea
- Brazil
- Malaysia
- Philippines
- Colombia
- United Kingdom
- Taiwan
- India
- Sri Lanka
- Italy

What We Do

Learning and Development Framework

Australian Skills Group's learning and development strategy focuses on four different levels. Our focus is on lifelong learning for students and pathways to meet industry future skills and workforce demands.

Identifying and meeting industry future skills and workforce demands by:

Incorporating a targeted holistic approach towards lifelong learning.

How We Do It

One of the best things about studying with Australian Skills Group is that so many of our qualifications require students to participate in an industry placement component, or "IPC" for short. In some countries, this is known as an "internship".

Industry placements provide students with the opportunity to apply the skills they learn on campus in a supervised, structured, "real-world" workplace environment. Placements allow students to gain up to date industry level training "on the job" – while giving employers the opportunity to pass on their knowledge and increase the number of work-ready graduates.

Is Industry Placement Mandatory?

Yes, the placement component forms part of your training for your course and is a mandatory requirement to achieve your qualification.

Australian Skills Group

Brendale Campus

Our Campus is located in the suburb of Brendale. Brendale is close to a comprehensive highway network, taking you north to the Sunshine Coast (M3); south to the Gold Coast (M1); and into Brisbane CBD. There is also a conveniently located railway station at Strathpine which takes you north to Caboolture with connections to the Sunshine Coast, or south into Brisbane CBD.

Most students want to live within walking distance of the campus, however, this is not always possible and is usually determined by availability and cost. There is rental accommodation in and around Brendale as well as the surrounding suburbs of Warner, Strathpine, Eatons Hill, Bridgeman Downs and Albany Creek.

Our campus is just a short walk from the Strathpine train station, shopping centres, cafes and restaurants. With onsite and street parking available the location is convenient for everyone.

University Pathways

ASG is proud to partner with several Australian universities to provide pathway opportunities for its students to transition to university study.

ASG works with its partner universities to evaluate the learning experience in units, courses, qualifications or occupations to pre-determine whether minimum academic or English language proficiency requirements are met and/or any amount of credit transfers to be awarded.

Learning achieved in the MEM50119 Diploma of Engineering – Advanced Trade will be considered in conjunction with other qualifications, professional development and industry experience, to maximise the potential for credit transfers. This means that experienced professionals have further opportunities to receive more credits towards a bachelor degree.

Partnership

Southern Cross University

Southern Cross University has achieved world class results in research, rankings, student satisfaction and overall reputation.

Located in Queensland and New South Wales, Southern Cross University is an open minded, young and connected regional research university with lively campuses. Southern Cross University delivers an exciting, contemporary and high quality learning experience, offering both undergraduate and postgraduate degrees.

At Southern Cross University, they believe in your possibilities, your potential, and offer a vibrant teaching, learning, research and cultural environment to help you achieve your goals.

AUTOMOTIVE

If you have a passion for cars, trucks, or agricultural vehicles, then rev up your career with an automotive course.

The automotive industry is progressing rapidly, with innovations such as hybrid electric and semi-autonomous vehicles dominating the market. Australian Skills Group engages with industry to ensure our students are working on the latest industry equipment.

Learn how to diagnose, maintain and repair a range of vehicles including 4x4, fire trucks, trailers, forklifts and agricultural vehicles.

AUTOMOTIVE COURSE

Package 1

Scan here to
view this course

These packaged courses have been developed for people who want to gain the skills and knowledge required to perform a broad range of tasks on a variety of light vehicles in the automotive service and repair industry and/or who want to develop their skills in mechanical overhauling.

Suitable for international students who wish to study automotive technology in Australia, these courses are designed to be packaged to provide greater flexibility in meeting individual student's needs.

Students are required to hold a current Australian visa with study rights to commence this course.

Duration:

78 weeks

Delivery Mode:

Face to Face at Brendale
+120 hrs industry placement

AUR30620
Certificate III in Light Vehicle
Mechanical Technology

AUR40820
Certificate IV in Automotive
Mechanical Overhauling

Course Cost: \$24,900

Tuition Fees: \$22,000

Non-tuition Fees: \$2,500

Enrolment Fee: \$400

Duration: 78 weeks

AUR30620 • 52 weeks
CRICOS: 109340H • 36 units

**Certificate III in Light
Vehicle Mechanical Technology**

AUR40820 • 26 weeks

Certificate III in Light Vehicle Mechanical Technology AUR30620

CRICOS: 109340H

ANZCO: 321211

Overview:

Available as a stand-alone or packaged option, this course provides the trade skills and knowledge to become a light vehicle motor mechanic. It is practical in nature with a hands-on approach.

Scan here to
view this course

Course Fees

TUITION: \$22,000

NON-TUITION: \$2000
(materials, consumables, textbooks)

ENROLMENT FEE: \$400 (non-refundable)

TOTAL COURSE COST: \$24,400

Duration:

52 weeks

20 hours per week

Delivery Mode:

Face to Face at Brendale

+80hrs industry placement

ASG Entry Requirements

Minimum age: 18 years

Academic suitability:

- Completion of Year 12 schooling or higher
- English proficiency at a minimum of IELTS 5.5 or equivalent

You also need to supply your own PPE - steel cap boots, long pants & high-viz shirt.

Qualification Pathway

For a packaged option, successfully complete: AUR30620 Certificate III in Light Vehicle Mechanical Technology within 52 weeks and AUR40820 Certificate IV in Automotive Mechanical Overhauling within 26 weeks in order to continue to AUR50216 Diploma of Automotive Technology.

Industry Placement

There is an industry placement component at the end of each semester where you will have the opportunity to practice your skills in the workplace.

Assessment

Assessment takes place at the end of each unit with a knowledge test and practical demonstration. There will also be approximately 3 hours per week self-study for assessment preparation in your own time.

Certification

On successful completion Australian Skills Group will award you the AQF AUR30620 Certificate III in Light Vehicle Mechanical Technology, or a Statement of Attainment in recognition of units achieved in partial completion.

Student Services

We offer a range of support services to assist you in achieving a successful course outcome. This includes tutorial support and Language, Literacy & Numeracy assistance where required. Please contact us to discuss any other individual needs.

Career Path

Automotive Mechanic

Course Structure:

AURAEA002 Follow environmental and sustainability best practice in an automotive workplace

AURASA102 Follow safe working practices in an automotive workplace

AURETR112 Test and repair basic electrical circuits

AURETR123 Diagnose and repair electronic spark ignition engine management systems

AURETR125 Test, charge and replace batteries and jump-start vehicles

AURETR129 Diagnose and repair charging systems

AURETR130 Diagnose and repair starting systems

AURETR131 Diagnose and repair ignition systems

AURLTZ101 Diagnose and repair light vehicle emission control systems

AURLTB103 Diagnose and repair light vehicle hydraulic braking systems

AURLTD104 Diagnose and repair light vehicle steering systems

AURLTD105 Diagnose and repair light vehicle suspension systems

AURLTE102 Diagnose and repair light vehicle engines

AURTTA104 Carry out servicing operations

AURTTA118 Develop and carry out diagnostic test strategies

AURTTB101 Inspect and service braking systems

AURTTC103 Diagnose and repair cooling systems

AURTTE104 Inspect and service engines

AURTTF101 Inspect and service petrol fuel systems

AURTTK102 Use and maintain tools and equipment in an automotive workplace

AURETR236 Diagnose and repair electronically controlled suspension systems

AURETR144 Diagnose and repair integrated engine and transmission management systems

AURLTE001 Remove and install light vehicle engine assemblies

AURLTF101 Diagnose and repair light vehicle mechanical fuel injection systems

AURTTF105 Diagnose and repair engine forced induction systems

AURTTX103 Inspect and service automatic transmissions

AURVTW103 Carry out advanced gas metal arc welding on vehicle body sections

AURTTX102 Inspect and service manual transmissions

AURTTQ03 Inspect and service drive shafts

AURTTQ001 Inspect and service final drive assemblies

AURTTA105 Select and use bearings, seals, gaskets, sealants and adhesives

AURLTX103 Diagnose and repair light vehicle clutch systems

AURLTX101 Diagnose and repair light vehicle manual transmissions

AURETR124 Diagnose and repair compression ignition engine management systems

AURETR143 Diagnose and repair electronic body management systems

AURFA103 Communicate effectively in an automotive workplace

Certificate IV in Automotive Mechanical Overhauling AUR40820

CRICOS: 109339A

ANZCO: 321211

Overview:

Available as a packaged option, this course provides the trade skills and knowledge to perform advanced troubleshooting and repair tasks in an automotive repair workshop. It is very practical in nature with a hands-on approach.

view this course

Course Fees

TUITION: \$5000

NON-TUITION: \$500
(materials, consumables, textbooks)

ENROLMENT FEE: \$400 (non-refundable)

TOTAL COURSE COST: \$5,900

ASG Entry Requirements

Minimum age: 18 years

Academic suitability:

- Completion of Year 12 schooling or higher
- English proficiency at a minimum of IELTS 5.5 or equivalent

You also need to supply your own PPE - steel cap boots, long pants & high-viz shirt.

Qualification Entry Requirement

Completion of AUR30620 Certificate III in Light Vehicle Mechanical Technology or equivalent automotive mechanical Certificate III qualification.

Qualification Pathway

Successfully complete AUR40820 Certificate IV in Automotive Mechanical Overhauling within 26 weeks in order to continue to AUR50216 Diploma of Automotive Technology.

Industry Placement

There is an industry placement component at the end of each semester where you will have the opportunity to practice your skills in the workplace.

 Duration:
26 weeks

 Delivery Mode:
Face to Face at Brendale
+40hrs industry placement

Assessment

Assessment takes place at the end of each unit with a knowledge test and practical demonstration. There will also be approximately 3 hours per week self-study for assessment preparation in your own time.

Certification

On successful completion Australian Skills Group will award you the AQF AUR40820 Certificate IV in Automotive Mechanical Overhauling, or a Statement of Attainment in recognition of units achieved in partial completion.

Student Services

We offer a range of support services to assist you in achieving a successful course outcome. This includes tutorial support and Language, Literacy & Numeracy assistance where required. Please contact us to discuss any other individual needs.

Career Path

Automotive Mechanic Supervisor

Course Structure:

AURTTA121 Diagnose complex system faults
AURETR017 Overhaul charging system alternators
AURETR018 Overhaul starting system motors
AURTTF003 Overhaul diesel fuel injection system components
AURLTB001 Overhaul light vehicle braking system components
AURTTD005 Overhaul steering system components
AURTTM004 Assemble engine blocks and sub-assemblies
AURTTQ004 Overhaul final drive assemblies
AURTTX007 Overhaul clutch assemblies
AURTTX008 Overhaul manual transmissions

Diploma of Automotive Technology AUR50216

CRICOS: 109338B

ANZCO: 321211

Overview:

Available as a packaged option, this course provides the advanced trade skills and knowledge required to diagnose, analyse, evaluate, design and modify vehicle systems in an automotive service and repair environment.

Career Path

Automotive Workshop Manager | Automotive Business Owner

Course Structure:

AURFA007 Develop and document specifications and procedures

AURFA006 Conduct research and present technical reports

MSMENV472 Implement and monitor environmentally sustainable work practices

AURETB002 Analyse and evaluate electrical and electronic faults in dynamic control management systems

AURETE001 Analyse and evaluate electrical and electronic faults in engine management

AURLTB002 Analyse and evaluate faults in light vehicle braking systems

AURLTD007 Analyse and evaluate faults in light vehicle steering and suspension systems

AURLTE003 Analyse and evaluate faults in light vehicle engine and fuel systems

AURLTQ003 Analyse and evaluate faults in light vehicle transmission and driveline systems

MSMENV672 Develop workplace policy and procedures for environmental sustainability

AURLTB001 Overhaul light vehicle braking system components

AURTTD005 Overhaul steering system components

CONSTRUCTION

Develop your skills and knowledge to work in the building and construction industry. Whether you want to work on commercial or residential building projects, our qualifications will help you advance your building and trades career.

A career in carpentry and joinery will see you working in either the residential and/or commercial sectors within the construction industry. Many carpenters find employment in housing and construction projects, civil engineering and maintenance roles. Carpenters can also choose to work for themselves as a subcontractor or small business owner.

The job outlook remains positive for the building and construction industry. Qualified workers across all aspects of the building and construction industry are in high demand. Learn how to construct frames for walls and ceilings, make timber joints or construct and install shopfronts.

Certificate III in Carpentry CPC30220

CRICOS: 110571E

ANZCO - 331212

Overview:

Available as a stand-alone or packaged option, this course provides the trade skills and knowledge required to become a carpenter in a residential or commercial workplace in the building and construction industry.

With an industry placement component, it is practical in nature with a hands-on approach.

Career Path

Carpenter

Course Structure:

CPCCCA2002 Use carpentry tools and equipment

CPCCCA2011 Handle carpentry materials

CPCCCA3001 Carry out general demolition of minor building structures

CPCCCA3002 Carry out setting out

CPCCCA3003 Install flooring systems

CPCCCA3004 Construct and erect wall frames

CPCCCA3005 Construct ceiling frames

CPCCCA3006 Erect roof trusses

CPCCCA3007 Construct pitched roofs

CPCCCA3008 Construct eaves

CPCCCA3010 Install windows and doors

CPCCCA3016 Construct, assemble and install timber external stairs

CPCCCA3017 Install exterior cladding

CPCCCA3024 Install lining, panelling and moulding

CPCCCA3025 Read, interpret plans, specifications & drawings for carpentry work

CPCCCA3028 Erect and dismantle formwork for footings and slabs on the ground

CPCCCM2006 Apply basic levelling procedures

CPCCCM2008 Erect and dismantle restricted height scaffolding

CPCCCM2012 Work safely at heights

CPCCCO2013 Carry out concreting to simple forms

CPCCOM1012 Work effectively and sustainably in the construction industry

CPCCOM1014 Conduct workplace communication

CPCCOM1015 Carry out measurements and calculations

CPCCOM3001 Perform construction calculations to determine carpentry material requirements

CPCCOM3006 Carry out levelling operations

CPCCWHS2001 Apply WHS requirements, policies, and procedures in the construction industry

CPCWHS3001 Identify construction work hazards and select risk control strategies

CPCCSF2004 Place and fix reinforcement materials

CPCCCA3009 Construct advanced roofs

CPCCCA3012 Frame and fit wet area fixtures

CPCCCA3018 Construct, erect and dismantle formwork for stairs and ramps

CPCCCA3019 Erect and dismantle formwork to suspended slabs, columns, beams and walls

CPCCCA3020 Erect and dismantle jump-form formwork

CPCCOM1013 Plan and organise work

ENGINEERING

You will be able to work in roles where you can design, manufacture and maintain the engines, machines and systems that keep modern society moving. Areas you could work in include mechanical engineering, maintenance and diagnosis, and installation and commissioning of refrigeration and air-conditioners.

This qualification will give you the minimum standard of competency expected of a qualified dual engineering technician.

Diploma of Engineering – Advanced Trade (Mechanical Fitting/Fabrication) MEM50119

CRICOS COURSE CODE: 100609
ANZCO - 323211 & 323213

Overview:

This qualification provides the skills and knowledge required for employment as an advanced engineering tradesperson within the metal, engineering, manufacturing & associated industries as a Maintenance/Mechanical Fitter and/or Welder/Fabricator. Very practical in approach it allows for the development of key skills over time through the completion of job tasks in a simulated environment.

Course Fees

TUITION: \$23,000

NON-TUITION: \$1,200
(materials, consumables textbooks)

ENROLMENT FEE: \$400 (non-refundable)

TOTAL COURSE COST: \$24,600

ASG Entry Requirements

Minimum age: 18 years

Academic suitability:

- Successful completion of Year 12 at school, including a pass in Mathematics
- English proficiency at a minimum of IELTS 5.5 or equivalent

You also need to supply your own PPE - steel cap boots, long pants & high-viz shirt.

Qualification Pathway

MEM80122 Graduate Diploma of Engineering

Industry Placement

There is an industry placement component at the end of each semester where you will have the opportunity to practice your skills in the workplace.

 Duration:
2 years
Full Time 20 hours per week

 Delivery Mode:
Face to Face at Brendale
+160hrs industry placement

Assessment

Assessment takes place at the end of each unit with a knowledge test and practical demonstration & throughout the course with a holistic project due at the end of each semester.

Certification

On successful completion Australian Skills Group will award you the AQF MEM50119 Diploma of Engineering –Advanced Trade (Mechanical & Fabrication), or a Statement of Attainment in recognition of units achieved in partial completion.

Student Services

We offer a range of support services to assist you in achieving a successful course outcome. This includes tutorial support and Language, Literacy & Numeracy assistance where required. Please contact us to discuss any other individual needs.

Career Path

Maintenance/Mechanical Fitter | Welder/Fabricator

Course Structure:

MEM13015 Work safely and effectively in manufacturing and engineering
MEM16006 Organise and communicate information
MEM11011 Undertake manual handling
MEM12023 Perform engineering measurements
MEM12024 Perform computations
MEM18001 Use hand tools
MEM18002 Use power tools/hand held operations
MEM14006 Plan work activities
MEM16011 Communicate with individuals and small groups
MEM09002 Interpret technical drawing
MEM16008 Interact with computing technology
MEM16012 Interpret technical specifications and manuals
MEM16009 Research and analyse engineering information
MEM16014 Report technical information
MEM12025 Use graphical techniques and perform simple statistical computations
MEM12026 Perform advanced trade calculations in a manufacturing, engineering or related environment

MEM18003 Use tools for precision work
MEM18003 Use tools for precision work
MEM18055 Dismantle, replace and assemble engineering components
MEM18006 Perform precision fitting of engineering components
MEM18011 Shut down and isolate machines/equipment
MEM18012 Perform installation and removal of mechanical seals
MEM18005 Perform fault diagnosis, installation and removal of bearings
MEM18007 Maintain and repair mechanical drives and mechanical transmission assemblies
MEM18009 Perform precision levelling and alignment of machines and engineering components
MEM12003 Perform precision mechanical measurement
MEM18010 Perform equipment condition monitoring and recording
MEM18018 Maintain pneumatic system components
MEM18019 Maintain pneumatic systems
MEM18020 Maintain hydraulic system components
MEM18021 Maintain hydraulic systems
MEM12004 Perform precision electrical/electronic measurement
MEM05007 Perform manual heating and thermal cutting
MEM05012 Perform routine manual metal arc welding
MEM05005 Carry out mechanical cutting
MEM12007 Mark off/out structural fabrications and shapes
MEM05050 Perform routine gas metal arc welding
MEM05085 Select welding processes
MEM05052 Apply safe welding practices
MEM05091 Weld using gas metal arc welding process
MEM27002 Test and repair compression ignition systems
MEM27004 Maintain and repair engine lubrication systems
MEM27005 Tune diesel engines
MEM27006 Diagnose and rectify batteries, low voltage sensors and circuits
MEM27009 Diagnose and rectify braking systems
MEM27015 Diagnose and rectify drive line and final drives
MSMENV272 Participate in environmentally sustainable work practices
MEM17003 Assist in the provision of on-the-job training

ENGLISH LANGUAGE

Should your English language proficiency not meet our course entry requirements we have arrangements with a range of English language schools who can provide ELICOS courses to meet your individual language needs. This means you can package together a suitable ELICOS course with your chosen Australian Skills Group course and apply for 1 student visa to cover the entire duration of your study.

ENGLISH PATHWAY PROGRAM

How does it work?

Use the following table as a guide to determine how many weeks of English you may require

ASG English Language Test Requirements	Minimum Test score for ASG courses	Minimum Test Score Where Combined With at Least 10 weeks' ELICOS	Minimum Test Score Where Combined With at Least 20 weeks' ELICOS
International English Language Testing System (IELTS)	5.5	5.0	4.0
Test of English as a Foreign Language (TOEFL) paper based	527	500	450
Test of English as a Foreign Language (TOEFL) internet based	46	35	32
Cambridge English: (Certificate in Advanced English – CAE)	162	154	147
Pearson Test of English Academic (PTE)	42	36	30
General English (GE)	Completion Certificate of 'Upper Intermediate' GE course from a registered ELICOS provider		

As a guide, the number of weeks English you require will depend on your test results but are usually in 10-week increments. Contact us for more information regarding our partner details.

BRISBANE

MOVING TO BRISBANE

Find out about living in Brisbane, as well as parks, events, facilities and recreation opportunities via the Brisbane City Council and Visit Brisbane websites. Orientation is a great opportunity for you to get familiar with our campus and learn to make your way around before classes begin. There are information sessions for students who are new to Brisbane.

We recommend that you arrive prior to semester start so that you have time to find accommodation, adjust to life in Brisbane, and attend orientation. If you're coming from overseas, there's a lot to learn when moving to a new country. The Choose Brisbane website has a comprehensive guide to adjusting to life in Australia that you can download.

Living in Brisbane

Brisbane is a gateway to Queensland, a state of varied and stunning natural beauty. We have beautiful national parks, hundreds of kilometres of beaches, tropical rainforests, and the Great Barrier Reef. Just an hour south of Brisbane is the famous Gold Coast with amazing beaches, amusement parks, and shopping. Just 40 minutes north of Brisbane are the beautiful, quiet beaches of the Sunshine Coast. There are endless places to explore in Queensland.

Queensland Tourism

Brisbane is also within easy travel distance of Australia's other major cities and attractions, as well as only being a short flight from Sydney, Melbourne, and great international travel destinations like New Zealand and Bali.

Weather

Brisbane offers you warm, sunny days and mild nights, which create a tropical ambience that's perfect for soaking up the city's outdoor lifestyle. The weather in Brisbane is fantastic, with an average temperature of 29 to 31 degrees Celsius in summer and 23 to 26 degrees Celsius in winter.

Transport

Queensland's excellent public transport infrastructure makes it stress free to get from point A to point B and anywhere in between.

- Buses
- Trains / trams
- City cat ferries
- Hire cars
- Taxis/Ubers
- Scooters/ bikes
- Walking

It's easy to access our college at Brendale, situated in the heart of industry, 12km north of the city, with access to large shopping precincts and train station only a short walk away from our door.

Accommodation

We have support services, advice and helpful lists to help get you set up in Brisbane. Once you have received your confirmation of enrolment, you should look for accommodation that suits your requirements and budget.

It is essential to find the right place to live so you can focus on your studies.

Considerations when searching for accommodation include:

- 1: Property size and location
- 2: Affordability
- 3: Length and type of lease
- 4: Close to campus, public transport and local amenities
- 5: Budget – rent, food, transport, spending money

Share accommodation - this is a popular option because it reduces expenses and results in a supportive living environment

Rental accommodation - either closer to the CBD or in one of the suburbs surrounding our Brendale campus

Homestay is another popular form of accommodation - students can live with Australian families who will provide a fully furnished room and up to three meals a day

Purpose built student accommodation - the options range from studio apartments to shared rooms with shared communal areas. – always close by to public transport making it very convenient and affordable (Iglu ,Scape, Student One, UniLodge)

Enrolment Process
